

# THE KNOWLEDGE SOURCE

Educating, Instructing & Developing

**Thursday, July 29, 2010**

8 am to 5:00 pm

**The Clarion Hotel**

**5311 S. Howell Avenue**

**Milwaukee, WI**

# **NEW! EPA/STATE OF WISCONSIN LEAD SAFE RENOVATOR/CONTRACTOR COURSE**

This course is designed to educate students how to work in a lead safe manner. This course meets HUD's requirement for one day lead safe training. This course is required before attending the Lead Abatement Work Course. No abatement can be conducted by attending this course alone. Topics covered: background of lead, health effects, regulations, interim controls and cleanup, disposal and cleaning verification. This class meets the EPA/State of Wisconsin criteria for the policy that came into effect April 2010! Important reminder: One person per crew will need to complete this course for any renovations conducted after April 2010.

**Intended Audience: Individual trade workers, managers, and safety personnel who work in remodeling of older buildings.**
